FOOD-PLANT CATALOGUE OF THE APHIDS OF THE WORLD

Including the Phylloxeridae

INDEX TO GENERA AND SPECIES OF FOOD PLANTS

ALICE W. AVERILL

PREFATORY NOTE

Certain entomologists, referring to Bulletin 393, FOOD-PLANT CATALOGUE OF THE APHIDS OF THE WORLD, have suggested that an index to genera and species of the food plants would facilitate the use of the bulletin, in which the plant index is restricted to Plant Families (pages 321-327). In response to this friendly suggestion, a supplementary, detailed, plant index has been prepared and is presented here.

INDEX

PAGE*	PAGE
Abelicea105	Acer
abelmoschus (Hibiscus)176, 178	acer (Erigeron)
Abelmoschus	Acerates
Abies	acerifolium (Viburnum)228
44, 45, 46, 47, 48, 49	aceroides (Negundo)
abrotanum (Artemisia) 236, 245,	acetosa (Rumex)109, 110
246, 247, 248, 249, 251	acetosella (Oxalis)
absinthium (Artemisia) 242, 246,	acetosella (Rumex) 109, 110,
247, 248, 254, 255, 257	111, 113
Abutilon	Achillea 235, 236, 239, 241, 242,
Acacia	243, 245, 247, 248, 249,
Acaena	253, 254, 258, 259, 260
Acalypha	Achyranthes115, 116
acanthium (Onopordon)238, 243,	acinos (Calamintha)210
250, 254, 256, 259	Aciphylla191
acanthoides (Carduus) . 237, 239, 243,	Aconitum
250, 254	Acorus70
Acanthopanax	acris (Erigeron)253, 255
Acanthus	acris (Ranunculus)120, 121, 122

^{*} Page numbers refer to Food-Plant Catalogue of the Aphids of the World by Edith M. Patch, Maine Agricultural Experiment Station Bulletin 393, 1938.
